Reactions to the MCG Party

MCG Party

MR CURSOR of TWG and
CORUN of MSC (AMIGA):
POLICE PARTY ORGAZINED
BY MCG?
Being very impatient, we
just entered the town
after a very long journey
from the other end of
WESI GERMANY. We lost our
way several times and arrived later as
intended. Now we may call ourselves lucky
as we recognized later! Still angry 'cause
of the loss of time we didn't recognize
the men with big walkie-talkies running up
and down the street where the party
should take place. Nobody thought about
plainclothes. The closer we got to the
youth-hostel the more the number of
police cars increased and we arrived
just in time to see policemen pushing out
some kids of the house and rummaging
their cars! For the very first time in
the scene a copy-party was dissolved
by the policel About 17 Amigas, 20 C64
and 3000 disks had been confiscated and
8 guys were led off
We stopped the car two miles away from and 3000 disks had been confiscated and 8 guys were led off.
We stopped the car two miles away from the hostel and went back! On the way we met TOM of MCG who told us some very strange things. TOM has been busted by the police one day before (!!!). It is a question whether all has happened accidentally or whether it was set on foot by some well-informed persons. We have a strong reason to helique that foot by some well-informed persons. We have a strong reason to believe that TOM of MCG is making common cause with the police. A lot of people phoned MCG the night before the party but no one was told that MCG had closer contact to the police! You really wonder why somebody who is caught by the police is giving a copy-party the day after. Why didn't they cry off the party or just mentioned that they had closer contact with the police? As we met TOM he didn't seem to be depressed at all. IS IT POSSIBLE that TOM promissed the POLICE to offer some guys to reduce his own punishment?

Now what had MCG to say about this?

As I talked to MARCEL/DSI/SLAYER of MCG
he told me the following: "As the police came on the day before the party, I threw my adress book away into the dust pin and after my mother brought it down, I wasn't able to call any of my friends. After all I don't know what happened the other day at the party place, but I don't care about this." JS Finally I personally would like to add that even though MCG promised to beat me up when I will write a further article about them here, I decided to print not only other opinions (as from ORION and TWG) but their own one (100K UP), so at least I think that's fair and I haven't said my point yet, but even though I again expect the worst. Nevertheless I would be very thankful for any additional information about the happenings there, especially from guys that were directly confronted.

AMIGA REVIEWS . . .

\* ACT OUT / DIGITAL IMAGE
Oh my god , another of this nonstopping Breakout-series . . This
time the Company stole the ideas
from kkakout and the sprites
almost 100% from Akkakout . Annyway
ACT OUT features saveable HIGH
SCORES and and an editor . A new
thing is a so-called Black field where
the ball disappears and appears in
another black field back . Up to
2 Flayers can compete moving their
bats up and down on the left side
of the screen , but only using the
mouse . The sounds are normal Amiga
standard . So new ideas would have
been better , nevertheless not the
worst Breakout-game , score : 68 F.

AARCH . also
announced to

by Melbourne House
is a kind of RAMPAGE
in which you can choose
between two different monsters,
that are a dinosaur and a cyclope
Now you have to destroy some very
well drawn cities , villages , castles
etc. , great stereo-effects and a
funny but difficult bonusgame
make the game very interesting,
even though the joystick movements
are quite hard , score : 87 points

\* BARBARIAN / PALACE SOFTWARE
Another goddamn 64 conversation
that features the same graphics
and sprites as on the 64 , not much
better . But the sound-effects are
as great as some sampled speeches.
It seems to me as if the game got
more difficult as on the 64 , anyway
still a good game , score : 82 P.

\* FRED FEUERSTEIN / TEQUE
After funny graphics and funny
speech ( YABBADABBADOOOOOOO ) the
game awaits with a niveau of a
b year old child . Its subdivided into
two parts , the first consists of
painting some walls which is quite
funny but the second part , stone
age bowling is as boring as the
game gets after a short while ,
score : 43 P.

After two minutes loading , cuz of
a bad crack dum by BST , the game

After two minutes loading, cuz of
a bad crack dun by BST, the game
involves you shooting, shooting

one has to be very careful with

\* WIZBALL / OCEAN And again a 84 conversation, probably of the best games ever on 64 has been converted very well. The game offers great graphics. graphics, nice sounds ( as usual from OCEAN ) and then the same movements from the old 64 then the same
the old 64
version
Another good
game from the
C 64 has been
converted very
well, so that AMIGA owners can
expect a lot from OLEAN as regards
thier further AMIGA conversations
like "GREEN BERET" (1), "PLATOON" and
"COMBAT SCHOOL". Score: 92 P.
\* POWER STYX
This time the idea was taken up
from the old Arcade game "UlX",
but it has been "updated" on the
AMIGA with nice music jingles,
brilliant graphics and after all the
years of "UIX" it still has a very
high motivation! Score: 93 P.
\* OBLITERATOR / PSYGNOSIS
PSYGNOSIS
PSYGNOSIS definetely reached the
standard of CINEMAWARE but one
regarding the game presentation as
one can see in this superb intro
showing optimal animation. The game
itself is rather a boring SHOOT "EM
UF with also brilliant graphics and
animations. The game seems to be
more complex, 'cuz it also has a
savegame function as it will take
more than some minutes to kill all
aliens around there. Score: 91 P.
\* SARCOPHASER / RANBOW ARTS
Another SHOOT "EM" UP like old
arcade "NEMESIS". The sounds
represents normal Amiga quality,
the graphics are nicely drawn and
the scrolling in the higher levels
is very fast. Just another good
SHOOT EM UP, but no new idea that
I always miss, score: 90 Points at al

"Delirious Magazine" vs "Illegal" part two!

Have I talked about "Delirious Magazine", that official TRANSCOM propaganda last month only in good words, so I HAVE TO CORRECT MYSELF I Now what happened ? It seems as if the old C64CG members again started a war ( remember their old "fuckings" to Beastle Boys, Triad and almost every other group ). This time against the whole "ILLEGAL" team. So they wrote an article for their magazine about "ILLEGAL", that we only represent the interests of 2 groups, namely CFR and TRIAD. Now JAYCE, editor of "Delirious Mag" refused to write that but nevertheless none of us will work his ass off to help them anymore, because its always the same with them when they think they've gone too known. So most of the ANTI-TRANSCOM-POWER is to expect from CFR, so it is to expect a cool demo soon while TRANSCOM are still learning to speek Engleaschz.../JS

LION TALK YO ( or HOI for Jeff )
this is MR.DECIBEL of
ORION writing his
first article in
"ILLEGAL" and
surely not his
last . The name
for my collumn is
"LION TALK" . I took
that name, because I once made a
text file for my contacts and
everybody started spreading it as
a demo . Oh, what will I be writing?
I try to get some and hot newwies
every month, write some crap about
ORION and always send fuckings to
old smellie al kajeffie ( haha) . No,
the last one was a joke of course .
I think we all have to praise Jeff
for starting "ILLEGAL" . I hope we
soon can find some people who will
help to make it more professional . help to make it more professional. I start looking, oh Jeff. But now some latest news...

#### The truth about the M.C.G. raid . . .

As everyone knows there was the copy party in MARL / GERMANY.
MCG ( Madonna Cracking Group ) said it was an ORION-MCG party but since DSI was kicked out of ORION, it was no longer an ORION party. So almost everyone came just because of ORION and of course not of MCG .
Now as MCG were so very depressed of their first party in December 87 cps it was so damn shit, so they wanted shit, so they wanted a success now with every possible means for example enclosing ORION, eventhough, but you know we had nothing to do with it. So they made 3000 copies of the invitation for the next, and spread it. -32 W copies of the invitation for the invitation for the invitation for the party and spread it like hell. They were so stupid to write the full adress on the invitation, so it was no wonder that one day before the party took place ( on 6th of May) the police arrived at homes of MARCEL/DSI and MCG. And Marcel freaked out totally at the police station and started telling lies and giving out adresses and nobody of MCG warned anyone the guys of MCG warned anyone the guys that wanted to come to their party, no, they made a deal together with the police to get better punishment when lots of guys are catched at their party place. Mean, isn't it? Now as far as I heard, WOD. ONL. INXS and some others were caught! Now as far as I heard, WOD. ONL. INXS and some others were caught! Now they can thank MCG, that must not show up anywhere around here. Well Marcel, I hope you can read this, cause when ever I am going to see you, I am going to kick your ass so badly, that . Well see us soon, Marcel | Argh. Now, one wonders what MCG was up to releasing old shit games with new names, that's all they can do and when they're going to crack a new

game they aren't able to do that.
Take "TARCET RENEGADE", a known
multi-load (it's said on the original
cover) game, which best version
came from JANITOR TRIAD. Now
MCG made a one part of it, hahaha!
They're really very good when they
can pack a multi-load in one file!
Now only the Americans prefer
MCG releases of old games, cause
everybody forget those games.
Now MCG are dead and nobody cares!
But OKEY, you see
right beside an
article from the
German daily
newspaper "MAZ"
for all of you who
can understand
German. There
it's said that
the police got a
hint for that
party, cause

party, cause everybody's hating them . Now , luckily it seems as if nobody wants to trade with those pigs anymore and that's the best one can do , cause nobody wants to take the risk that MCG spread their adress again | Now , there

was MAPL

Sorry to disappoint you for a few weeks, but it has paid of for me, cause it seems as if I am passing all my exams and soory for so many excuses, but write more and soory for so many excuses, but I know you all understand . . .

ALL'S MAILBOX

EXCELSIOR! Who's been playing dirty, who's died and who's back, read it here and believe it.

- Finally something is happening in this boring country i'm accidently stuck in (BELGIUM). B-ART and Will have decided that strength in members is the way to the top and have merged dropping both groups and naming themselves after an old 64 legend : FLASH . - Another piece of homenews for here, can Belgium take it? Ever heard of LEGEND? Not yet, well watch your screens coz this is a new international group containing ex-members of Belgium's CHINA SYNDROME, ORION, NEW-LIFE, SIGMA, TSW, SHIELD and TRILOGY.

- GENESIS PROJECT (ah, not that from the STAR TRECK movies) have atracted 2 new groups to their already big family to be more specific : RAW and MELMAC TEAM . But not all groups are getting bigger this month , those German Sharks lost a few people like TPI , ULTIMAX and MCT . Ah well the loud moves in mysterious lad the pleasure to receive a reviewer's copy of "DIGITAL NEWS", the electronic magazine on disc and although my knowledge of German is limited, to say the least, I spent the best part of 3 hours of enjoyment with it and I can fully recommend it to all you outthere, there seems to be an attitude towards pirates not to buy it, coz they think themselves to important to pay for a disc, but they forget that "DIGITAL NEWS" is a magazine like "64'er" and "HAPPY CUMPUIER", but much better worth that money. So go out and buy it; you have MAD ALL's approval of quality - After half a year of success the VENLO copy-parties seem to be slowing down after the best one on the 16th of April there won't be any big one before July or September, coz a lot of people will stay away on the may and juneparties coz those dreaded exams are there always is a big black hole in the software-releases. Some big names want to come to the July-edition, but you know that a pirate's word is always tracherous ( otherwise he wouldn't be a pirate - dummy).

For a good laugh read the preview section in "GAMES MACHINE" when they are taking about a new mega-game which is just finished and will be released in 6 weeks if were're lucky. Oh yes, the games: winter edition.

Thank for info to LEGEND, B-ART, - I had the pleasure to receive a reviewer's copy of "DIGITAL NEWS"

Thank for info to LEGEND, B-ART, GENESIS PROJECT.
Keep the gossip comming, it's always welcome... Later from MAD-ALLigator

Well, big American companies give their employees codes for making business calls that include a fixed amount of money. This code consists of 14 digits, for example such as 41593089102514. Using this code you can call any American friend of yours you like to for only one telephone unit. You only have to call the American AT&T station from your country, give the operator the number of your American friend and this code. Nothing's easier! this code . Nothings easier!
The only problem is that such a code isn't working for a long time, in best ways up to 5 days. to 5 days.

US doodes that own a 3-way and then
can call anutha friend of yours.
Normally such a "direct-call" is
used for importing, 'cuz it offers
quite a good connection, except
from Germany. Anyway, this
offers you new possibilities to keep
your telephone bill as low as possible
and your parents wondering why
you spend the whole night in a

LETTERS FROM THE READERS

Dear Scouse Cracking Group ,

it was nice to see someone with a bunch Dear Scouse Cracking Group.

The sound as some suys already to sleep but without any chance. Composed a new sound as some suys already to sleep but without any chance. Why? Guess of ideals in this corrupt pirate society of what Jeffie did after 8 bottles of beer? or ideas in this corrupt pirate society of what Jeffle did after 8 bottles of beer today ... I just wish to remind you that your views are not totally new to us, infact I have been trying to tell the world with the society this for a long time. Since I have now quit, you are TAKING OUER a tradition of quality cracking, not CREATING it.

Just keep that in mind, maybe take a look at TIGER HELL and GOOD LUCK ... if I return to sleep but before he had to then may you be crushed like a magont.

Write a demotext for a small "PARTYTIME" at NGCK NELL and GUUD LUCK ... If I return then may you be crushed like a maggot under a Testarossa as all our other competitors but if I don', GU FOR IT! You have my blessing ... finally one thing ... OUR INTRO is , I believe , true ancient history - a fundamental part of what you can call the good old days. the good old days !

JANITOR ('I'm wicked ( or bad?'))

THE VENLO MEETING', 18th OF APRIL 1988!
Finally the ultimate meeting in VENLO!
Believe it or not, about 600 glys showed up there! Among them, names like:
FIRICIFIT ( Strider and Gollum Who came from Sweden), IRRI ( Nik, Mark and Paul ) FUSION ( Jester ) HOTLINE of Course, RADWAR, CFR, TRANSCOM, TMG, ORION, LLUSION, TRANSCOM are almost killed by so many lamers it was so overcrowded that it took you half an hour to get from one end of the room to the other. Even though Nik of IKARI was warring a ring around his finger, he let me know that he still to have to seems as if all guys from 1 rRANSCOM are very shy as they didn't speak a single word to me, perhaps they couldn't. SLEDGHAMINER from HTL got the bispest applause showing his new lack. But the time was too short when you know that FARLIGHT arrived at 1.50 and 1014 almost teared the flag of the property was perhaps came together even the DANSH GOLD was beaten by the OUTCH ones! The central meeting undere so ease to was a historical ball was beaten by the OUTCH ones! The central meeting upont was a small food shop outside, where nobody could believe that FARLICHT rem SWEDEN and IKARI from ENGLAND really made that far journey. But unfortunately the est of all meeting ended at 4, so we had "EVENT or a swell and the winner in the competition was XAKK's way a perhaps for a ranging it cause it was a historical and the winner in the competition was XAKK's way and the winner in the competition was XAKK's way bout this party, but anyway thanx to fall meeting ended at 4, so we had "EVENT or a ranging it cause it was coll to meet my old friends!!"

\*\*EXCEPT FAIRLIGHT REDIGIOR and some other collean the best of the class of the party and the seems as if all supports the collean the seems as if all supports the only who thinks so. Jeff Smart the only who thinks so. Je 

making some 3-ways . F.A.M.E. composed a out Jeffie opened the window behind him and sprinkled some water on him. Guess how TONI looked like after 10 bottles? His eyes were opened only for the half as normal and he finally sat down in the corner to sleep but before he had to write a demotext for a small "PARTYTIME" demo that you shall watch out for! So almost everyone felt asleep at 8 or 7 o'clock (as far as I can remember), but had to rise 2 hours later as the two Swedish ones had to leave at 10 to meet GOLLUM's parents waiting at the autobahn. So I left also very quickly so that I didn't have to clean the room. Remembering this brilliant hours back, I can say that this was the best party I ever had and it seems as if I am not the only who thinks so...

It was in a some kind of big room and two cool to meet my old friends!! Signed: Mr.Pinge/TRIAD!!!!

#### NEWS FROM SYSTEM 4

ZIP! Anutha month passed by with shocking 'n inciting events that are by With Shocking 'n inciting events that are presented rite 'ere .

\* FANTASY , EX-F.C.S.

leader , tried to commit suicide , 'cuz of losing anutha match against his girl-friend , who woz fucked by a friend of him . I was told that he pricked his leg seven times with a big knife until the knife broke into pieces . Who said that girls aren't ruling ?

\* After TPI asked TRIAD to Join , he wrote back : "Thank you for your offer , but I built up my own group ", Hup , when did we make him an offer ? Tell me when , Jugregn ? Hum , anyway his group is called INXS ( why music-groups ? Where has own creativity gone ? > and several members from the SHARKS Joined it \* Sensation ! Sensation ! SLEDGEHAMMER from HOTLINE bought a new Jacket! Nobody wanted to believe his eyes when seeing SLEDGY appearing in a white jacket I guess I saw him 10 times before that famous brown leather jacket . First assumptions were that he now has expanded to sell games , but \* Ever heard of SOFT TIGER CREW ? Jacket | | guess | saw him IU times before that famous brown leather jacket . First assumptions were that he now has expanded to sell games, but . \*Ever heard of SOFT TIGER CREW? They Joined dead A.C.E., but now look here: They're buying stuff from several guys, e.g. DRION, FUSION and so on Maybe they also paid a lot of AUSTRIAN SHILLING to enter A.C.E., but for that money one would get a better group? \*\*Now ... as olde IAN left FUSION (look also on the special article 'MAN WHITHOUT MACHINE'), THE JESTER was kicked out by the two guys remaining, namely MARK and CRAIG. Now THE JESTER Joined forces of the AMIGA group PUBLIC ENEMY NO.1, no connections with that US group. \*\*What for the hell happened to good old SURUNUORS ??? It really seems as if only one guy survived, that's BUBA FETTE, who's still importing all stuff from NIK of IKARI. Now it can be heard that BADD BOY, after getting one of these nice telephone bills, built up his own new group called CRIME. In him ... shuddering name; en? \*\*THE WANDERER GROUP, who have always been very interested in American groups took in another talented importing gamp took in another talented importing spang took in another talented importing spang took in another talented importing stamps from STEVE's former employees. Now one can be arrested for being a pirate. \*\*STEVE and IRONFIST of ZENITH were arrested for stealing franked stamps from STEVE's former employees. Now one can be arrested for being a pirate. \*\*STEVE and IRONFIST of ZENITH were arrested for stealing stamps, urons ?! \*\* Here's the new INTERNAL TRAD status: As Lucifer was kicked out, IXION's new emergencyplan activated a guy called for stealing stamps are yearly and another one, called DREAM DANCER reinforces the German TRAD section, so watch out for releases of the German ones.

Alyways wondering who's writing the instructions for all FARLIGHT cracks???! german ones. German ones ariting the firstructions for all FARLIGHT cracks ??? As STRIDER told after having drunken several beers, that he always forces his two little brothers to do this...

\* at the mo every German one is afraid of the consequences that the MCG raid has brought about, but read "LION TALK" by MR.DECIBEL of ORION for more thinx bout that the HU...HU...as I was told by Iots of English guys, ANDY from NEW BENCOR BROS supplied that official magazine COMMODORE USER (there was a big article about English crackers announced) with nothing less than this somehow known magazine called eh, I dunno, well, I guess, hmmm ..., wasn't it? yes, the "ILLEGAL". The only thing I care about this, is that the March edition he sent to 'em, was rather bad comparing this one 'ere . So, maybe I'll send 'em this nu one! "! got MAD ALL from COMMANDOFRONTIER finally to give out the names from the new CFR members and so they are not only PRINCE and SHADOW known formerly as THE AUSTRIAN CREW (hups ? Did I miss sumthing ?) but also LETO II, wing got quite famous being ex-TRANSCOM graftx man (remember his work for 'ROCK II'), cuz he felt that TRANSCOM was a bit too large (that could not happen in TRIAD, eh ?????????????) and as he WAS a fan of BUBULAND's drawings his choice and CFR's of Course was only natural eh??????????? ) and as he WAS a fan of BUBULAND's drawings his choice and CFR's of course was only natural.

\* Now , other German guys had to say farewell 'cuz getting in contact with the always watching BIG BROTHERS, better known as 'THE POLICE' ( yes , I think I've heard of 'em !). So were FREESTYLE raught getting packages from the post caught getting packages from the post office on their PLK and LUPO of ONLINE at his home where the police just rang his doorbell Now, state at PLASTIC's (from FREESTYLE ) home is gone veery low as his mother denies that he's at home everyday 24 hours , hum? Rumours said that his phone is monitored so don't call him saying "well , my adress is ", that could bring sum trouble with if Rumours said that his prione is munitored so so don't call him saying "well, my adress is.", that could bring sum trouble with it. ", that could bring sum trouble with it.", that could bring sum trouble with it. ", that could bring sum trouble with it." It is and FCT of ORION built up a group called "Spinx" secretely behind the back of all other ORIONeers to grap all their contacts and come out under this name now. They also spread some useaeaeaery funny rumours, for example I was quite surprised that MR.DECIBEL Joined TRIAD (!) and DSH will exclusively work on AMIGA in one week and join FAC again, NUP! NO! NEIN! NJET! Totally bullshit. No as they have to start from the beginning, on the same point they were picked up, they're going to steal ORION's contacts and spreading false rumours, anutha funny one is that they get originals from HEADBANGER in the U.S.A., but he's only on AMIGA right now as he told me, so more crap. Now it seems as they won't live for long cuz ORION sweared revenge which is their good right. But we all know what happens to such guys who leave bigger eroups ( take ELRIC Of AGILE as a gad pood right. But we all know what happens to such guys who leave bigger groups (take ELRIC of AGILE as a bad example who was kicked out of TRIAD).

\* Walting for meetings of protest I'm signing off but not without thanking all these fine guys for all these fine news MAD ALL < CFR. MR.DEC / ORION , JESTER PE no.1 STRIDER / FLT , OAHAWOOL / FBR TWG , CF / BEASTIE BOYS , MZP / RED SECTOR , HEADBANGER and all at TRIAD!

This month only a couple of games arrived because of the notorious summer gap ... buhuuuu ... no change in sight ? summer gap ... buhuuuu ... no change in sight?

\* STAR RANK BOXING / GAMESTAR
Looks totally like "MC GUICAN BOXING" released in 1986 . Movements were improvements, now various tactical moves possible . Offers save option on disk, saves down world ranking list . Training camp as the game itself nice, but because of the fact that one fight lasts for 15 \* 3 minutes REALTIME it gets boring by first playing . Hum, otherwise an old idea has been quite well improved . So , the "ILLEGAL ranking" looks like : 59 / 100 possible points . \* SAMURAI WARRIOR - THE ADVENTURES OF USHAGI YO. JIMBO Well , we got that game in a non-full-working preview version two months ago . Now it works perfectly . Very nice sprites with great animations and Jimbajimba sound serve the oriental atmosphere . Nice graphics also , now it becomes a little serve the oriental atmosphere . Nice graphics also , now it becomes a little bit exhausting after a while , who cares ? ranks : 81 / 100 % LAZER TAG / GO! Huh, the "First non-violent shoot 'em up" was announced in the big advertisements . So how's it ? SHIT! The movements of your figure are that bad as you are used to know from games that have their origin in 1983 . The graphic are also that 1983 standard and haven't seen any non-violent things as you are shot down after a few seconds from some lazer armed guys . So what? GO GO HOME! ranks : 13 % C'DERNOID / HEMSON Brillant sound from MANIACS OF NOISE makes the dull game concept more interesting . Now you have to solve ( or to shoot ) several tasks with your spaceship by thinking sometimes and shooting like hell . Great graphics and cute sprites are as included as a nice intro screen . ranks : 85 % KARNOU / DATA EAST ? Remember the U.S. version of "IKARI WARRIORS" , yes , DATA EAST made that Remeber the conversation of "BREAKTHRU" which was sooo damn bad , yes , also done by DATA EAST . which was sood damh bad, yes, also dure by DATA EAST.
So, what do you expect from KARNOU? Nothing, and you're right. The graphics look like singlecolour, the speed of the sprite is so slow that you can easily drink a cup of Coffee during your figure is jumping, arght. I would sides. Stay east, Data East. ranks: 10 % SHANGHAN KARATE Urgs. Slowlier than a snail, two fighters are trying to smash their ugly heads to ugiler pleces and you have to move them. Not a nice job, eh? The graphics do not change, that's not so bad, either, because they aren't good. No sound can be heard, no tension can be aroused even if you're playing one on one human opponent. playing one on one human opponent . No , thank you very much , ranks : 09

\* BOB WINNER / LORICIEL
Hum ... nice atmospheric graphics , but
such a bad sound fix that I first in my
life switched the sound off on my
monitor. The game sucks , too. Moving
a bad animated sprite with a tooo
heavy movement from left to right
without scrolling isn't that one can
dream of ah? So I advise you to have
instead of looking at BOB WINNER a look
at NIKKI PENNY , the public relation
woman of LORICIEL because that's more
interesting ( look at THE GAMES MACHINE ,
number 6 , page 5 ) , so ranks for her :
95 but for BOB WINNER : 18
\* PARANDIA COMPLEX / MAGIC BYTES
A lot of guys will wonder right now , but
only three guys in the pirate market
have got this game that will be released
in September . Well , I can only say that
this is bad luck for all of you, because
it's the best game MAGIC BYTES released
so far . You move with your man through
a large labyrinth of a town , where you
can improve your weaponry and things
like that . The title sound is fantastic!
So , I think you have to wait a little
bit until you'll see it . ranks : 88
\* IMPOSSIBLE MISSION 2 / EPYX
FINALLY! The game appeared after a
curious preview . AH! That's what my
heart really wants . Everything's
improved! You have 8 different
towers to search through for hidden
code numbers that let you , in the
right order , enter the next tower.
New features like moving on platforms
left to right , up and down , using
bombs to destroys treasuries etc.
have been also included! After you New features like moving on platforms left to right, up and down, using bombs to destroys treasuries etc. have been also included! After you managed to get through all 8 levels, you have to destroy all treasuries in the in the towers to get parts of a Music song, that doesn't sound good. Anyway, you have to bring these parts in the right order and play it somewhere where a secret door to ELVIN's tower openes. HUM? EASY, EH?! would be glad if someone writes if he discovered ELVIN'S tower, okey? This game will take your breath for a while. I bet! "LLEGAL"—rankings: 98 """" A\*4 OFF ROAD RACKING / EPYX Take your car and make a drive! It features elements from OUTRUN and BUGGY BOY, but isn't that exciting game. You have to be careful on the streets on the streets because other drivers like to drivers like to
smash you off
the road
You can choose between 4 different
courses, 4 levels and 4 cars. Now
you have a hard race overtaking all
other drivers. Hum, not that bad,
well, it's okey, but only: 86.

\* G.U.T.Z. / OCEAN
Try to escape from a stomach of a
monstrous moon. Sounds strange, eh?
This game was written by DCEAN's
programmer team SPECIAL FIX, who sign
responsible for FIREFLY and FREDDIE
HARDEST for example, and they did their
best work so far. The task of the
game is to find weapons in the labyrinths
inside the monster (burgs...) and
destroy a special part after 4 levels,
so a liver and a heart... Fine graphics
and a great sound (Fred Gray), but
it soon gets boring after some levels
because the labyrinths stay all the same,
so the ranks: 86. all reviewed by JS
